

BLOSBOX PACKAGING

FROM ONE BRIEFCASE TO A MILLION STORIES

Six years ago, BLOSBOX began with just four hands and a single briefcase. My father and I started this journey without a single machine, selling our handmade boxes door-to-door, one jeweler at a time. Through tireless dedication and year-over-year growth, we have transformed into a state-of-the-art facility where 80% of our production is now automated. With over 1,000,000 boxes delivered to jewelry stores, we combine the soul of our handmade origins with the precision of modern technology.
